Standards

The Control Union Timber Legality Verification (TLV) standard, version 2-0 – **Due Diligence**System requirements

Control Union Certifications declares to have inspected the unit(s), and/or products and supply base(s) of the above mentioned Certificate Holder, and have found them in accordance with the standards mentioned above. This certificate only covers the entity and supply base(s) as mentioned in the authenticated annex of this certificate.

This certificate is in force until further notice, provided that the above-mentioned Certificate Holder continues meeting the conditions as laid down in the licensee contract with Control Union Certifications. Based on the annual inspections that Control Union Certifications performs, this certificate is updated and kept in force.

Products can only be considered as covered by the scope of this certificate when the required TLV claim is clearly stated on invoices and shipping documents. A full list of product groups covered by the certificate and the validity can be verified on the CUC website http://cucpublications.controlunion.com/certified companies and products.aspx. In no circumstances shall this certificate be considered an indication of approval by any governmental authority of the certificate holder's legal compliance.
